

Dear Parents,

ATCO gas has recently started a project to upgrade a main gas line in the neighborhood, impacting traffic in the immediate area. As of this afternoon, 88th Ave SE is partially blocked, Aberdeen Rd SE is closed, open to local traffic only and Ancourt Rd SE has large equipment parked along it, affecting bus parking. Open excavation is currently underway in part of our field but has been fenced off by ATCO, preventing public access in the surrounding area.

As things have begun changing on a daily basis, we are asking that you remain mindful when dropping off or picking up your student(s) and respect the signage that the city and ATCO has put in place. We also ask that you remind your student(s) that they should not be going near the work area. Parking of busses are impacted but may change on a daily basis.

We will be updating the website and Edsby as things change, so strongly encourage you to check each morning for updates on the work that is taking place.

Thank you for your cooperation in this matter.

Sincerely,

Justin Kool and Jesse Classen
